equinox™

Our Purpose Is To Enrich Outdoor Spaces

We believe in the power of design and its ability to influence and elevate the quality of public space. High quality products and outstanding customer experience makes us one of the world's premier designers and manufacturers of outdoor commercial furnishings.

Best of NeoCon Award Winner

Designed for commercial environments, Equinox features a sturdy aluminum frame and single-piece pole. Nylon-lined center hub makes operation easy; air vent releases gusts of wind. Sunbrella® marine-grade fabric cover is lock-stitched with double seams for added strength.

Equinox Specifications

Equinox umbrella frame is extruded aluminum, joined by stainless steel pins at pivot points. Frame and single-piece pole are finished with Landscape Forms' exclusive Pangard II® polyester powdercoat, a hard yet flexible finish that resists rusting, chipping peeling and fading. Call for a standard color chart.

Sunbrella® marine-grade, 100% solution-dyed fiber is treated for a high degree of fade-resistance, is mildew proof and meets California Technical Bulletin #117 Section E (CS-191-53). All fabric umbrellas are subject to damage from high winds; we recommend lowering Equinox at night and in windy conditions.

To Specify

Select Equinox 8-foot umbrella, and powdercoat color for frame and pole. Choose burgundy, oyster or forest green Sunbrella® marine-grade fabric color; specify plain or valanced-edge. Options include silk-screening the valance and optional Sunbrella® colors. Umbrella must be mounted to table support. If used without a table, umbrella stand must be surface mounted.
