

landscapeforms®

wellspring®

Wellspring goes mainstream with new teak furniture for relaxed social settings in hospitality, residential and protected public spaces.

The family resemblance is clear. The new Wellspring dining table and chairs with coordinating litter receptacle echo the scale and design details introduced in Wellspring benches for lifecare environments.

Now Landscape Forms offers popular Wellspring comfort features, including extra chair slats, curved back and contoured seat, and a table that seats five, in elegant casual furniture ideally suited for dining and conversation, a laptop and latte, in a variety of settings.

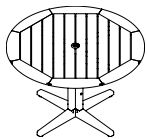

Our Purpose Is To Enrich Outdoor Spaces

We believe in the power of design and its ability to influence and elevate the quality of public space. High quality products and outstanding customer experience makes us one of the world's premier designers and manufacturers of outdoor commercial furnishings.

Wellspring® Specifications

Dining Table

The 48" round dining table is constructed of solid teak with no finish. All tables have removable center teak plug. Table can be specified as surface mount, or freestanding. If used with an umbrella, table must be surface mounted for stability. Powdercoated titanium surface mount plate is attached to base. Black rubber center grommet comes standard with each surface mount table. Stainless steel leveling glides provided for freestanding tables. Some assembly required.
