BIKE STATION (BS)

VIEW #3
PLACE:
BIKE STATION

A sheltered space that provides security, wayfinding, and places to rest.

PRIMARY INSIGHT:
ESTABLISH A SENSE OF SECURITY

Creating safe environments for people and their belongings establishes a sense of security and releases the mind to experience the relaxing and rejuvenating effects the outdoors offers.

BIKE STATION (BS)

ELEMENTS, ATTRIBUTES, AND USER EXPERIENCE

A. **Upfit** creates a visible destination point as well as a weather shelter for bikes and people.
B. **Upfit** glass panels can display commuting and trail maps.
C. An **Upfit** louvered roof and both **Upfit** slatted and green panels provide shelter from the elements and a sense of place.
D. The louvered roof also provides protection from wind and sun; weather management offers control of sun and shade levels and rain protection.
E. In public places, **Upfit** lighting options such as uplighting in the louvered roof offer a level of security and extend use of the station.
F. **Upfit** in-line table offers occupants a convenient surface for organizing belongings; a gathering spot for hikers, cyclists, or commuters; and access to charging for devices.
G. **Parallel 42 benches** offer a place to sit and rest or organize gear and belongings.
H. **FGP bike racks** provide secure storage of bicycles. Multiple bike racks could be specified for larger bike stations.
I. **Torres path lighting** defines the edge of the bike station and provides a level of comfort and security during evening use.
J. **Kornegay Dune planters** introduce natural elements into the station’s surrounding deck area.
K. **Collect receptacles** placed in convenient locations help to keep the area free of litter.
