SUBURBAN TRANSIT STATION (STS)

VIEW #2

Travel | STS
PLACE: SUBURBAN TRANSIT STATION
A small open air bus or rail stop.

PRIMARY INSIGHT: ESTABLISH A SENSE OF SECURITY
Create environments that provide basic personal safety, security of belongings, and furnishings to enhance the journey for travelers and commuters.
ELEMENTS, ATTRIBUTES, AND USER EXPERIENCE

A. Upfit structure provides transit users with weather protection, seating, surfaces, power, and wayfinding.

B. The Upfit louvered roof provides protection from wind and sun; weather management offers control of sun and shade levels and rain protection.

C. Upfit in-line tables offer commuters surfaces for belongings.

D. Power access at the Upfit in-line tables is delivered through Upfit’s posts and beams. Interior lighting contributes to a sense of security during evening or early morning use.

E. Upfit slatted panels provide a degree of enclosure and protection from wind but still allow views of surroundings.

F. Upfit glass panels with screened route maps aid wayfinding.

G. Stay benches within the station interior offer commuters places to rest themselves and their belongings. Backless benches allow commuters to orient themselves in a preferred direction.

H. Go OutdoorTable on the exterior of the stations provides a protected surface and power access for commuters.
