Morrison

Sustainability Data Sheet

landscapeforms

Sustainability is the foundation of Landscape Forms' commitment to enhance the experience of outdoor space. Across our portfolio, we prioritize responsible design, materials, manufacturing practices and partnerships that honor the environments we help shape—today and for the future. Each solution reflects our ongoing efforts to reduce environmental impact and advance sustainable landscape design through thoughtful decisions across the entire lifecycle.

Morrison is manufactured using the following materials:

Material	Parts	Recyclable
Aluminum	Supports	100%
Stainless Steel	Supports	100%
Wood	Insert	100%

Finishes

All metal is finished with Landscape Forms' proprietary Pangard II® polyester powdercoat, a durable yet flexible finish that resists rusting, chipping, peeling, and fading and requires no solvents for cleaning. Surfaces should be cleaned with a soft cloth or brush and mild detergent, avoiding steam cleaning, abrasive cleansers, carbon steel brushes or wools, and chlorine-based cleaners. Outdoor use requires periodic inspection for scratches, nicks, and gouges, which can be repaired with touch-up paint provided with each order.

Exterior woods require no maintenance, but if desired, surfaces can be scrubbed with warm soapy water and a soft bristle brush. Heavily ingrained stains may be sanded away with fine sandpaper along the grain, and sanded areas will weather naturally to a gray patina. Pressure washing and steel wool or wire brushes should be avoided. Interior woods require only dusting or occasional cleaning with a good-quality furniture polish.

Packaging Materials	Parts	Recyclable
Biodegradeable Plastic	Product Bagged to Protect Finish	100%
Recycled Skid		100%
Cardboard with 35% Recycled Content		100%

Care and Maintenance

Morrison is designed and engineered to live a long, useful life in outdoor spaces without the use of chemical cleaners to maintain the finish. The durability, longevity and low maintenance of our products contribute to responsible stewardship of the earth's resources.

All metal is finished with Pangard II® polyester powdercoat, a lead-free and hazardous air pollutants (HAPS)-free finish that does not generate hazardous waste and contains less than 1% VOCs. Once cured, trace VOCs are fully inert, ensuring the finish does not release airborne contaminants.

Landscape Forms exterior wood products are made from species that weather naturally in outdoor settings to a silvery gray patina. No paints or applied finishes are used, as these would require ongoing maintenance. Interior woods are finished with Landscape Forms' exclusive LF-80 wood finish, a clear, catalyzed acrylic lacquer that provides lasting protection with minimal maintenance.
