Finishes & Materials

**Powdercoated Metal (Gloss)**

- Black
- Blue Bell
- Buttercup
- Cranberry
- Flambé Orange
- Grass
- Ivy
- Ocean
- Stormcloud
- White

**Powdercoated Metal (Metallic)**

- Bronze
- Silver
- Steel
- Stone
- Titanium
- Mercury

**Designer Palette Architectural Series (Low Sheen)**

- Blue Ash
- Dusk
- Nutmeg
- Obsidian
- Onyx
- Matte Black

**Polyethylene**

- Black
- Blue Bell
- Daisy
- Fog
- Grass
- Otter
- Pine
- Sky
- Millstone (only available with Rosa)
- Habanero (only available with Chill)
Finishes & Materials

LOLL Designs High-Density Polyethylene (*H.D.P.E.*)

- Charcoal Gray
- Apple Red
- Leaf Green
- Sunset Orange

Woodgrains (*Exterior, No Finish*)

- Domestically Sourced Thermally Modified Ash
- Ipe
- Redwood
- Jarrah
- Teak
- Alaskan Yellow Cedar

Woodgrains (*Interior, LF-80 Finish*)

- Domestically Sourced Thermally Modified Ash
- Oak
- Maple
- Jarrah

Solid Surface Marneaux®

- Blue
- Calgary
- Celery
- Jade
- Mist
- Pueblo

Sunbrella® Umbrella Fabric

- Buttercup
- Forest Green
- Ginkgo
- Natural
- Tuscan
**Finishes & Materials**

**Phifertex® Plus**

- White
- Metallica Platinum
- Black

**MeldStone™**

- Natural White
- Natural Ecru
- Natural Black
- Natural Grey

**Polysite®**

- Bark
- Black
- Driftwood

**Powdercoated Metal Pangard II® Polyester Powdercoat** is a hard, yet flexible, finish that resists rusting, chipping, peeling and fading. In addition to colors shown on the reverse side, a wide selection of optional and custom colors may be specified for an upcharge.

Polyethylene Rotationally-molded polyethylene is produced by tumbling polyethylene powder in a mold under heat. The material provides strong structure with integral color that stands up to heavy use and is easily cleaned. Aggregate colors are subject to an upcharge.

Loll Designs High Density Polyethylene is made of 100% recycled HDPE (high density polyethylene) sourced primarily from recycled milk jugs.

Solid Surface Marneaux® This 100% acrylic resin solid-surface material resists scratching, staining, chipping and cracking. Weather, harsh chemicals and UV rays have virtually no effect on the “throughbody” color or structural integrity of the material. Optional colors are available at an additional charge.

**Phifertex® Plus** is designed and engineered for a wide variety of applications that demand extra strength and/or dimensional stability. Phifertex Plus is highly durable, easy to clean and mildew, stain and fade resistant.

MeldStone™ (Ultra-high performance concrete) A highly engineered material that enables casting of lighter weight, thin-profile forms with exceptional strength and high resistance to compression, bending, impact and wear.

Polysite® Made of recycled 100% high-density polyethylene, polysite will not rot, splinter or crack and resists moisture, corrosive substances and insects.

- All colors and patterns shown are approximate and may vary from sample and final.
- All colors and woodgrains shown are approximate and may vary from sample and final.
